JUNIOR FRONT-END DEVELOPER

- Competent in front-end web development, such as HTML, CSS, and Javascript, with a focus on modern frameworks such as React.js
- Committed to building responsive, accessible, and user-friendly websites
- Knowledge of RESTful APIs and asynchronous programming techniques, facilitating seamless data retrieval and manipulation within front-end applications.
- Experience with version control systems like Git, facilitating collaborative development workflows.
- Strong communication skills in building positive relationships.
- Organized and detail-oriented with time management.
- Eager to apply my skills in web development to contribute to a dynamic and innovative team.

HARD SKILLS

- HTML5
- CSS3/SCSS
- JavaScript
- jQuery
- React.js
- PHP
- Tailwind
- Github
- Node.js

SOFT SKILLS

- Solve problems
- Keep Learning to Improve
- Insightful
- Understand the big picture
- Open to Communication
- Logical
- Organize/ manage projects
- Motivate people
- Adaptable

EDUCATION

KonKuk University (Korea)   **2017 - 2022**
Food Marketing and Safety

IESEG School of Management (France)   **2019 - 2020**
Management and Marketing

TAMWOOD College (Canada)   **2022 - 2023**
Web Development

BCIT (Canada)   **2023 - 2024**
New Media and Web Development

PROJECTS

CRUD Project
May 2024

- Skills: React.js, Node.js, Express.js, MySQL, GitHub, HTML, CSS, JavaScript
- Implemented a user-friendly interface with React.js for seamless interaction with the application's data.
- Developed server-side logic and API endpoints using Node.js and Express.js, ensuring robust and scalable back-end architecture
- Designed the relational database schema and implemented data storage and retrieval using MySQL
- Employed best practices for error handling, data validation, and security in both the front-end and back-end.
- Used GitHub for repository management and code review

Weather API
Feb 2024

- Skills: React.js, API, Tailwind, Github
- Integrated the weather API to fetch and display weather data based on the user's current location.
- Implemented data fetching and handling asynchronous data.
- Utilized Tailwind CSS to create a modern, consistent, and responsive design.
- Managed weather data state efficiently using state hook and props system to ensure seamless data flow and updates.
- Used GitHub for repository management and code review

Multistep Form
Apr 2024

- Skills: React.js, HTML, JavaScript, MUI (Material-UI), GitHub
- Utilized Material-UI to design and implement stepper components, ensuring a cohesive and visually appealing design.
- Managed form state efficiently using hook state and props system, ensuring smooth data flow and updates across form steps.
- Implemented form validation logic to ensure that user inputs are correct and complete before allowing progression to the next step.
- Implemented conditional rendering and dynamic form fields based on user input, streamlining the registration process and reducing user fatigue.
- Used GitHub for repository management and code review

Pet List Filter & Search
Apr 2024

- Skills: HTML, CSS, JavaScript, JSON, GitHub
- Implemented a search feature that allows users to find pets by name quickly.
- Developed various filtering options to narrow down the pet list based on criteria such as species
- Developed the application's structure and layout using HTML and CSS, focusing on a responsive and visually appealing design.
- Implemented the search and filter functionalities using vanilla JavaScript, ensuring efficient DOM manipulation and data handling.
- Utilized JavaScript to dynamically update the pet list based on search queries and filter selections, loading data from a JSON file.

PROFESSIONAL EXPERIENCE

Wang Chang Jokbal Restaurant (Korea)   **Aug 2021 - May 2022**
Research Intern

- Researched and organized data
- Prepared shooting and script for video clip
- Made details on the marketing plan

Stari Tech & Entertainment Platform (Korea)   **Aug 2020 - Feb 2021**
Research Intern

- Researched and organized data
- Prepared shooting and script for video clip
- Made details on the marketing plan

CU Convenient Store (Korea)   **Jan 2019 - Jul 2019**

- Taught English skills such as grammar, vocabulary, pronunciation, and literature practice.
- Helped a student prepare for an English exam at school
- Served as a mentor, offering encouragement, motivation, and advice to help students set and achieve academic goals.

Private English Tutor (Korea)   **June 2018 - May 2019**

- Taught English skills such as grammar, vocabulary, pronunciation, and literature practice.
- Helped a student prepare for an English exam at school
- Served as a mentor, offering encouragement, motivation, and advice to help students set and achieve academic goals.

Cafe (Korea)   **Jun 2018 - Aug 2018**

- Taught English skills such as grammar, vocabulary, pronunciation, and literature practice.
- Helped a student prepare for an English exam at school
- Served as a mentor, offering encouragement, motivation, and advice to help students set and achieve academic goals.

COMPETITION

QDS Hacks 2024 (Canada)   **Mar 2024**

- Take the lead in implementing UI components using HTML, CSS, JavaScript and Tailwind.
- Conduct thorough front-end code testing to identify and fix bugs, errors, or performance issues.
- Collaborate with team members to brainstorm solutions and overcome challenges together.

VOLUNTEER

Get Lucky Art Show (Canada)   **Feb 2024**

- Put up the art pieces, put up signage, move tables, sanitize tables/bar.
- Kept an eye on colouring and hanging out with the kids
